

Aerobic Act/Static Display Aircraft-Valiant Echoes: \$7,060

About the act: Michael Kennedy flies a Vutlee BT-13A, a World War II training aircraft. *Basic Training* recreates an aerobic training mission a WWII pilot would encounter and provides the audience the opportunity to listen to the live cockpit broadcast of the instructor's comments on the PA system. Share the thrill and excitement of a cadet's first aerobic flight and the instructors' tips as he saves them both from the cadet's mistakes. A truly unique and historic air show presentation.

Historic Echoes, an elegant and graceful aerobic display performed with smoke and a 1940's musical background. This act brings back memories of a time past where an uncertain future combined with a national resolve to keep our nation free. Imagine a cadet in 1943 tuning in his aircraft ADF radio to the local radio station to listen to all the current big band hits while practicing his aerobic flying. Add aircraft smoke to trace his maneuvers and you have an awe-inspiring heritage flight. A sight not seen since 1945 and the wars end. Michael also flies an evening performance, *Sunset Echoes*.
